WORK EXPERIENCE

freeCodeCamp

Front End Developer

Developed a tribute page honoring Dr. Norman Borlaug, showcasing his contributions to agriculture and humanitarian efforts. Utilized HTML, and CSS to create a visually appealing and informative webpage highlighting Dr. Borlaug's achievements and impact.

CERTIFICATION

freeCodeCamp

Legacy JavaScript Algorithms and Data Structures

Responsive web design

Personal project

Front End Developer

Crafted a dynamic real estate platform allowing users to buy, sell, or rent properties with ease. Implemented using HTML, and CSS, the platform features intuitive navigation, detailed property listings, secure transactions, and seamless buyer-seller communication.

SKILLS

Html

Css

JavaScript

React

Node.js

Alamz inc.

Front end Developer

Created an e-commerce app for a mobile phone, enabling seamless browsing and purchasing. This project showcased my expertise in web development and enhanced user experience, driving sales and satisfaction.
